The World has Changed

Trade, alliances & risks look very different in 2025.

We've evolved to meet the moment by:

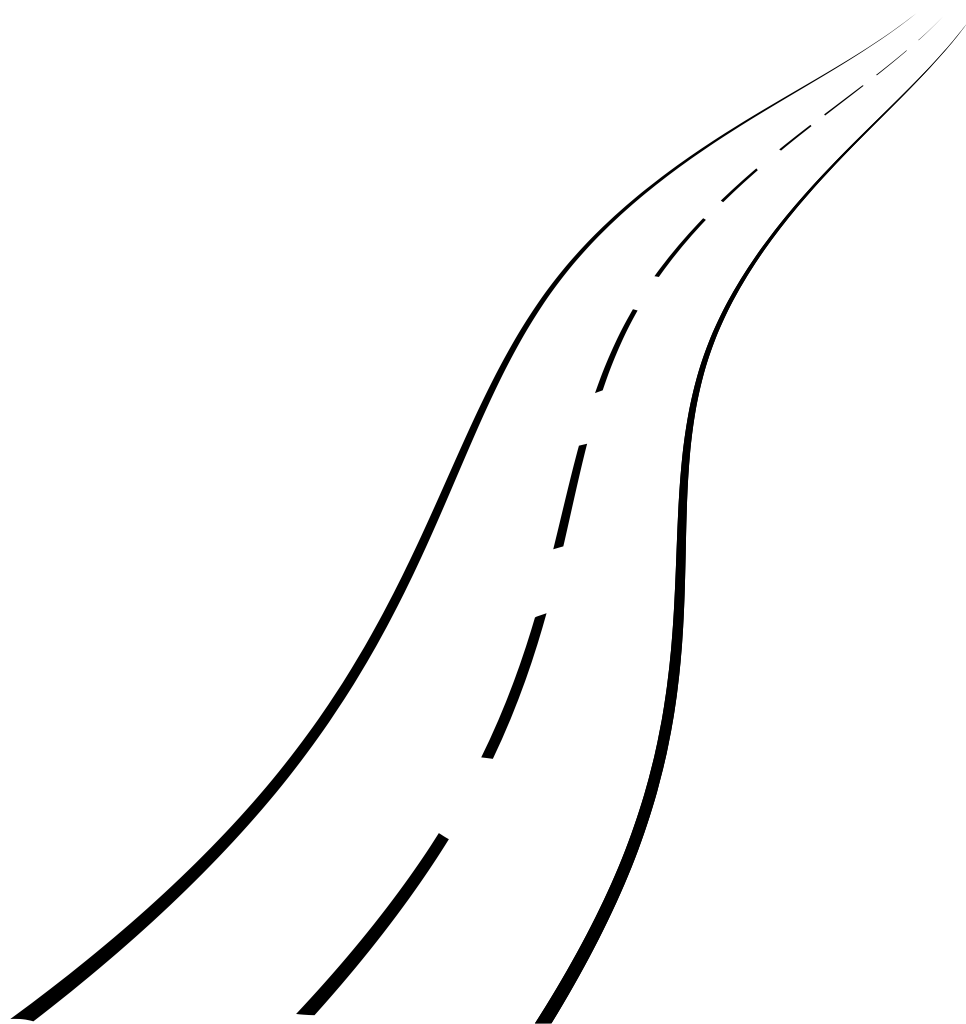

- Sharing insights through more public speaking
- Guiding businesses through Trump-era policies
- Unlocking new opportunities across Asia

The Next Chapter

We're entering our ninth year with a sharper focus than ever - delivering insights that help leaders **cut through the noise**, practical **solutions** to today's biggest challenges, and **building partnerships that make Asia stronger.**

Thank You!

Eight years wouldn't have been possible
without our clients, partners &
community.
